How to Apply for a CIE Scholarship through Cougar Scholarship Award System (CSAS)

Step 1:
Complete the General Application at https://cofc.academicworks.com

By indicating that you will study abroad on the general application, you will be able to complete the Travel Application next.

Step 2:
Complete the Travel Conditional Application

Make sure that you "submit" both of these applications (you may update them later if needed). Once you "submit" you will see a checkmark next to the Travel Conditional Application. (You do not need to complete/submit the other conditional applications unless you are applying for a scholarship or award in those categories as well.)

Step 3:
In "Recommended Opportunities" search for CIE Scholarships and other named scholarships that may apply to your program.

If the CIE Scholarship does not appear in "Recommended Opportunities", select the "Opportunities" tab, then "Ours". This should show all available opportunities.

View CIE’s website for information on additional study abroad scholarships: https://international.cofc.edu/study-abroad/scholarships.php

Email studyabroad@cofc.edu if you have questions.
